Appendix II. Food Innovation Team

Background

The Food Innovation Team (FIT) is a subcommittee of the Minnesota Food Safety and Defense Task Force (FSDTF). The FSDTF created FIT to help answer questions and assist Food Business Owners (FBOs) in navigating Minnesota's food licensing and regulatory environment. Most food businesses in Minnesota receive a license to do business from MDA, the Minnesota Department of Health (MDH), or their delegated agencies with relative ease. However, some food business owners (FBOs) may encounter delays in licensing, or determination of exemption or exclusion from licensing due to a number of factors that may not be easily solved without assistance. The FSDTF is statutorily responsible (MN Statute 28A.21) for a number of duties related to assisting FBOs including providing advice and coordination to state agencies and serving as a source of information and referral for the public concerned with food safety. The FSDTF created FIT to help answer questions and assist FBOs in navigating Minnesota's food licensing and regulatory environment. The guiding procedural document for the Food Innovation Team will be MNTF.SOP.10.01, "Minnesota Food Safety & Defense Task Force – Food Innovation Team." This standard operating procedure (SOP) provides the following and can be found on the FSDTF website.

FIT Subcommittee Activities and Task Force Governance

- 1. Submission of a Pre-Screening Intake Form to FIT Subcommittee**
 - 1.1. When an FBO has been working with a licensing agency and has encountered a barrier to licensing, or to operating with an exemption or exclusion from licensing, the FBO may submit a request to the FFSD Director, FIT subcommittee member, or their designee to have FIT to review the case in an attempt to clarify regulatory requirements and assist in identifying potential resolutions.
 - 1.2. A pre-screening intake form is completed and circulated to FIT subcommittee members prior to a FIT subcommittee meeting.
- 2. FIT Subcommittee Review of Case or After Action Review (AAR) and Submission of Report**
 - 2.1. The FIT subcommittee reviews the information, discusses the case, and makes recommendations in the form of a Case Report or AAR Report.
 - 2.2. The Case Report or AAR Report, as an official outcome of the subcommittee, is submitted to the FSDTF.
- 3. Task Force Review and Discussion of Case or AAR Report**
 - 3.1. During the next task force meeting, a FIT Subcommittee Chair or designee provides a summary of the case and report. A FSDTF Chair opens the floor to discussion of the report.
 - 3.2. FSDTF members could propose any further actions to be taken by the task force, including but not limited to creating an ad hoc subcommittee to explore further actions, sponsoring education and training opportunities, or making recommendations for changes to Minnesota laws.
- 4. Dissemination of the Report**
 - 4.1. Following the FSDTF review, the report is then shared with the FBO.
 - 4.2. After the FSDTF review, data from the report is included in a public database on the FSDTF website for future reference.

Exclusion of liability statement

The report generated is a non-binding review by the FIT Subcommittee; it is the role of the jurisdictional

regulatory body to determine next steps for the FBO. Neither the FIT Subcommittee nor the FSDTF are the final decision maker regarding the future of a case. FSDTF and its subcommittees are advisory bodies only. The job of the FIT Subcommittee is to aid FBOs with complex questions as they relate to licensing, and offer suggestions based on member's experience and expertise. The FSDTF and its subcommittees do not have any enforcement or regulatory authority and are not liable for any issues or consequences arising out of the use of the FSDTF or any subcommittees thereof.
